There's a new way to stay for a trip to experience the popular [Yosemite Valley](#) and Yosemite National Park. [Firefall Ranch](#) offers 55 stand-alone one-, two-, and three-bedroom cottages and villas, which all feature a double-sided indoor/outdoor fireplace, spacious covered deck, and high-style design elements. Located within minutes of Yosemite's northwest entrance, the property's built for rest and relaxation after busy days of outdoor exploration.

A Recreation Desk helps guests arrange guided excursions that range from snowshoeing outings to a private airplane ride over the park. But there's also lots to enjoy at Firefall Ranch itself, like a heated pool and hot tubs, hiking trails, games in the Guest Lounge, and outdoor activities including bocce ball and horseshoes. A seasonally rotating activities calendar offers fun for the whole family, with options like nightly fireside s'mores, crafts, stargazing, and wine tastings.
